

BOARD ADVISORY / GOVERNANCE

Board Composition Scorecard

A practical framework for evaluating board capability against strategy, governance, and growth priorities, and for identifying the gaps your next director appointment should close.

Strategy alignment

- Does the board collectively understand the current strategy and its risks?
- Are the sectors and business models on the horizon represented in the room?
- Is there capacity to challenge management on the value-creation plan?

Capability coverage

- Financial and audit-committee depth is sufficient and independent.
- Relevant sector and operating experience is present and current.
- Technology, digital, and data fluency match the strategy.
- Risk, regulatory, and compliance expertise fits the environment.
- Talent, culture, and people-leadership experience is represented.

Governance and dynamics

- Independence ratios meet governance standards and investor expectations.
- Committee composition and chairs are fit for purpose.
- Board tenure is balanced between continuity and fresh perspective.
- Meeting dynamics allow genuine debate, not just reporting.

Composition and pipeline

- Diversity of background, perspective, and experience is intentional.
- A director succession and refresh plan exists and is current.
- The next appointment's profile is defined against the gaps above.

Scoring

- Rate each line: Strong / Adequate / Gap.
- Prioritise the two or three gaps with the highest strategic consequence.
- Translate priority gaps into a single, specific director brief.
